HAVING had considerable practice in
England, I am enabled to offer the pub-
lic genuine and properly amalgamated pre-
parations in horse and cattle medicine which
has experience warrants.

W. L. C. while visiting the veterinary
art, was impressed with the fact that the
value of a horse depends as much upon his
set, as upon his power. The perfect set
may be the horse's service and dis-
mounted or altogether lost and knowing
that had shaming is the most common cause
of lameness, he will make Scientific prac-
tice in horse shoeing a specialty. Contracts
for medical attendance. Operations per-
formed. All charges reasonable.

MAN FOUND DEAD.

The police detachment here was

notified yesterday that the dead

body of a man was found in a shanty

20 miles south east of Balgonie by

some German settlers who reside in

that neighborhood. They immedi-
ately went out to investigate, and if
the report proves correct will bring
the body to town.

A NEW STEAMER ROUTE.

The Canadian Pacific Navigation

Company (Limited) has opened up an

attractive route for Summer

Tourists. Their handsome Clyde-

built steamer the "Islander" is to

make five trips from Victoria and

Vancouver, B.C., during the coming

season, among the inlets, fjords, &c.,

of British Columbia, to Sitka and

the great Muir Glacier. Among

other places the steamer will call

at Fort Simpson, Metlakatla,

Gardner's Inlet, China Hat, Fort

Rupert and Alert Bay; points not

visited by the other steamers that

have hitherto made the trip to Alas-

ka. In this way some of the most

magnificent of the coast scenery of

British Columbia will be seen, and

seen from the deck of a new, well

appointed and comfortable steam-
er. The passage being in smooth water
throughout; a great part, indeed,
through narrow fjords where a bit-
cuit could be thrown ashore on
either side; the vessel; the only
drawback to such a trip is removed.
Passengers so desiring are to be
landed at Sitka, and of course at
any of the points named in British
Columbia. This picturesque and
interesting portion of the North
American continent is very little
known; an excellent description of
it was given by Lord Dufferin when
he visited it as Governor-General of
Canada; and the fact that the trip
can now be made with every comfort
and at such a reasonable cost (\$95
the return ticket from Victoria or
Vancouver) ought to attract a num-
ber of those who desire to recruit
their health and enjoy a novelty in
travel. Tickets and berths, &c.,
for this tour can be obtained from
any agent of the Canadian Pacific
Railway.

A. C. PATTERSON, Manager.

THURSDAY, APRIL 21, 1892.

The Hon. Alexander Mackenzie,

ex-premier of Canada, breathed his

last on Sunday morning, and in his

death Canada mourns the loss of

another of her greatest and best

men. Probably no man who has

ever taken an active and prominent

part in Canadian politics left behind

him a reputation more worthy of

emulation than the Hon. A. Mac-

kenzie. He was a man of great

ability, and by perseverance rose

from comparative obscurity to a

position where he enjoyed the con-
fidence of a majority of the people
of Canada, and during the heat of
the most bitter political conflicts his
integrity was never questioned. His
health for many years past pre-
vented his taking that prominent
part in politics that characterized
his earlier life, and in consequence
the Liberal party was deprived of
the counsels of one of its ablest
men.

DIED ON SUNDAY.

TORONTO, April 17.—After a pro-

tracted illness of many weeks dur-

ing, the Hon. Alexander Mackenzie,
M.P. for East York, and ex-premier
of the Dominion of Canada, died at
his residence, St. Alban's street, be-

tween 12 and 1 o'clock this morning.

The venerable statesman had been
in very feeble health nearly all
through the winter, the result of a
fall which he sustained early in

February, though it was not until
about six weeks ago that his con-
dition became

Town & Country Cullings.

—Mr. Bulvey is building a large addition to his store rooms.

—A number of settlers from Dakota are expected to arrive here next week.

—Miss Mabel Talbot returned from Winnipeg, where she has been attending school for the past two years.

—Fine spring weather here now, while the people of London, England, are wading through snow a foot deep.

—Senators Boulton and Longhead have arrived from Ottawa, and will remain at their respective homes for a week.

—The Qu'Appelle Turf Club will hold its race meeting between the 25th and 30th of July, when about \$800 will be offered in purses.

—We are requested to ask the party who found a basket at the Agricultural Hall to leave it at Mr. Beauchamp's store, where the owner will call for it.

—Mr. J. W. May, brother of Robt. May, and Mr. W. McKinlay, of Mena Mills, Ont., and Mr. Currie, of Port Elgin, are among the latest arrivals in town.

—There is a lot of employment for men and teams, as will be seen by reference to advertisements, to be let by Mr. A. M. McLane on the Sunbeam and Wreckin farms.

—The latest addition to the North-West Press, the *Moosomin Journal*, is to hand. It is a neatly printed, newsy paper. Mr. W. Burlbank is editor and proprietor.

—Mr. Thomas Blair, one of our early settlers, who has spent the last few years in British Columbia, stayed off at Qu'Appelle on his return from a visit to friends in the east.

—The "Rudge" is an English bicycle, and is accepted as the best manufactured. Prices ranging from \$45 to \$160. John H. Murphy, Moosomin, sole agent for the Territories.

—Mr. Chas. McDougall has dissolved partnership with Mr. East in the hotel business at Indian Head, and is making extensive alterations in the hotel preparatory to getting a license.

—Prof. Tanner having completed his business in connection with the Brasserie, left on Wednesday's train for England. This makes the thirtieth passage for the Professor across the Atlantic.

—The advantages to be gained by the adoption of free trade and direct taxation were evidently not very favorably impressed on the Edgely people at the debate lately held there, judging from the result.

—Our merchants are daily receiving large quantities of new goods, and business in all lines is looking up. A considerable larger area will be sown this spring than heretofore, and with a favorable season we look forward to a period of prosperity unequalled in the history of the town.

—The education of the voter is pre-eminently the work of the Liberal party. We have a firm foundation whereon to build a sturdy superstructure. —*Moosomin Journal*. The material for the foundation is probably taken from the Mercier wreck, the Nova Scotia and Manitoba Governments.

—About fifty of Mr. Andrew Gray's most intimate friends met at his residence on the farm on Friday evening last, and took possession of the place for the night. Dancing was the chief amusement indulged in till all were abundantly satisfied. An elegant supper was provided by the host that in point of excellence and arrangement would severely test the abilities of people who make considerable pretensions as caterers. The prairie homes of enterprising bachelors are not entirely devoid of those comforts that make life enjoyable.

—Mr. A. M. McLane has been appointed local manager of the Sunbeam Farm, one of the new farms lately established by the Brasserie Co. The intention is to grow grain on a large scale, and several hundred acres of land will be broken this year and put in readiness for crop next spring. Stone buildings will be erected during the summer. Mr. McLane is a first class man, has had many years experience in this country, and we feel confident that English capital invested in farming operations here under the management of so reliable and practical a man will yield a dividend highly satisfactory to the investors.

BIRTHS.
On the 3rd inst., the wife of Mr. John Craig, of a son.
On the 14th inst., the wife of Mr. James Smith, of a son.

AN ACCIDENT POLICY.
The best accident policy is to keep Haggar's Yellow Oil on hand. As a pain cure it is unrivalled, while for burns, scalds, cuts, bruises, rheumatism, neuralgia, etc., its results are often almost magical. Used externally. Price 25c.

SINTALUTA.

Seeding is in full swing. Mr. W. A. Lewthwaite is rushing the lumber trade in town. Mr. Jas. Cargo's team are getting too many oats. They ran away the other day and made a bad wreck of his harness.

Our station agent, Mr. R. J. Moily has gone to Saskatoon on leave of absence, his place being taken by Mr. Finlayson.

Much larger crops will be put in this year than last. Mr. David Raiton and Mr. H. O. Partridge each intend to put in 300 acres.

BALGONIE.

Four new settlers from Ontario have arrived and taken up land.

Eight German well-to-do families have arrived, and will settle in the district north of the town, and more are expected every day.

The new blacksmith shop is open, and doing a rushing business.

The well boring machine is working in this locality. Many have found water at reasonable depths.

Mr. Hawkes had the dam repaired and saved from being taken away by the flood.

Mr. Hawkes has received a large quantity of new spring goods, and is doing a fair business.

Mr. A. E. Barton is also doing a good business.

Mr. Cockwell runs his chopper Mondays and Thursdays, and farmers find it a great convenience.

GRENELL.

Seeding is in full blast, and a large acreage will be put in crop.

Quite a number of new settlers have arrived here this spring and are renting farms.

Mr. McEwen is building a large stable, 50 x 30, east of the Granite Hotel.

Several houses are under contract and construction, and our town has a healthy growth.

Good Friday and Easter Monday have been kept as holidays, and the stores were closed.

The Hunt Club had a fine run on Easter Monday. Mr. R. Gwynne is master of the hounds.

Judgment in *Sherlock vs. Wilde* was given, resulting in favor of plaintiff with costs. In the case of *Burke vs. Boston and Whitley* judgment was given for defendants. Action dismissed with costs.

WHITEWOOD.

Seeding is in full swing, and the acreage sown will be much larger than usual.

This district is having a good share of incoming settlers up to date.

Mr. Alex. McKenzie has left for the Spring Lake Ranch in the Qu'Appelle Valley.

Myles McArthur has moved on to his new farm two miles west of town.

Mr. R. S. Park sold his eighteen-month-old Holstein-Friesian bull to Mr. E. Jannet for the sum of \$200. Mr. Jannet, who is now building a cheese factory, intends using this breed in the settlement for the use of his dairy, which will be in working order about the 1st of May next.

A number of business men are taking steps to have the town incorporated under the provisions of the Municipal Ordinance, and are likely to be successful. It is a step in the right direction. No town will or can be successful or progressive without local government. All that is required is to put the best men in the Council—those who have the interests of the town at heart, and whose pockets will be touched if they go in for heavy taxation.

EDGELEY ECHOES.

Several new settlers have arrived here lately, renting farms in most cases, with the idea of purchasing or homesteading as soon as suitable locations shall be found.

From accounts throughout the settlement, stock is doing well, some farmers having already had as many as twenty calves.

The open meeting of the Patrons of Industry, held on the 5th inst., was acknowledged to have been a grand success all round. There was a lengthy and varied programme, consisting of solos, duets, and recitations, also an oration from Mr. Currie in his usual inimitable style. One of the leading features of the evening was a debate on "Direct taxation vs. otherwise." Messrs. Fraser and Dale, as shown by the votes of the audience, had the best of the argument, by their speeches in support of the present system of taxation. The ladies of the settlement provided the refreshments, which were evidently appreciated, as shown by the hearty vote of thanks tendered to them.

CONSIDER THIS FACT.

The fact that rheumatism is caused by an acid in the blood points to the remedy. Burdock Blood Bitters, which remove all impurities from the blood, not only remove rheumatic humors, but even obstinate constipation and catarrhs of the bowels.

TEACHERS' MEETING.
